

To test your contactless acceptance device against Visa implementation, GALITT offers:

- payWave™ qVSDC and payWave™ MSD Terminal Test Suites (TTS) **confirmed by Visa Inc.**

These Terminal Test Suites implement the:

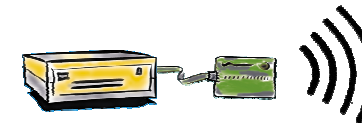

- “Test Plan for Visa Contactless Payment Specifications - qVSDC Contactless Reader”
- “MSD Contactless Reader Test Plan for Visa Contactless Payment Specifications”

PayPass™ Test Suites for MasterCard are also available.

Willing to assist vendors in their test process GALITT offers:

- ✓ **Special price on bundles combining the EMV2000 L2 TTS & Contactless TTS(s)**
- ✓ **A discount on the UltraSmart™-CEMUL**

With GALITT, YOU:

- choose 20 years of experience on testing solutions;
- get test tools easy to use, shortening the test process and reducing costs;
- deal with a partner wishing to build a long lasting and valuable relationship;
- join more than 400 companies who trust our competences on payment systems.
